

CURRICULUM VITAE

TUDOR CONSTANTIN BADEA M.D., M.A., Ph.D.

Positions held:

Scientific Director, Research and Development Institute, Faculty of Medicine, Transilvania University of Brasov, Romania, Since March 2024

Senior Researcher (CS I), Research and Development Institute, Faculty of Medicine, Transilvania University of Brasov, Romania, Since May 2023

Senior Researcher (CS II), National Center for Brain Research, ICIA, Romanian Academy, Since June 2022

Senior Researcher (CS II), Research and Development Institute, Faculty of Medicine, Transilvania University of Brasov, Romania, September 2021 - May 2023

Investigator, Head of Retinal Circuits Development and Genetics Unit, N-NRL, National Eye Institute, NIH, Bethesda Maryland, September 2010 – August 2021

Instructor, Department of Immunopathology, University “Iuliu Hatieganu”, School of Medicine, Cluj-Napoca, Romania, January 1995 - January 2001

Academic training:

Habilitation in the field of Medicine, Transilvania University of Brasov, Romania, June 2022

Postdoctoral Fellow, Howard Hughes Medical Institute, Department of Molecular Biology and Genetics, School of Medicine, Johns Hopkins University, Baltimore May 2004 – August 2010

Doctor of Philosophy (PhD), Biochemistry, Cell and Molecular Biology, School of Medicine, Johns Hopkins University, Baltimore June 1999 – May 2004

Master of Arts (MA), Biological Sciences, Columbia University, New York January 1998 – June 1999

Research Fellow, Department of Pathology, Medical School, University of Maryland at Baltimore March 1995 - January 1998

Internship Clinical Laboratory, Medical Clinic No.1, School of Medicine Cluj-Napoca, Romania December 1994 - February 1995

Medical Doctor (MD), University “Iuliu Hatieganu”, School of Medicine Cluj-Napoca, Romania September 1988 - September 1994

Research experience and Skills:

Neurobiology:

- Generation of complex genetic marking systems in the mouse for analysis of neuronal cell morphology and function.

- Conditional gene ablation combined with reporter gene expression for mosaic analysis of expression pattern and developmental functions of transcription factors in neurons.

- Computer assisted reconstruction of neuronal dendrite and axonal arbors; description and discrimination of neuronal morphologies by statistical analysis of morphological traits.
- Analysis of neuronal population firing by correlation of action potential generation with live imaging of changes in intracellular calcium concentrations in neurons using brain slice preparations.
- Analysis of Retinal Ganglion Cell physiology by multi electrode array recordings in response to visual stimuli.
- Analysis of visual function in wild type and mutant mice, using commercial and novel behavior apparatus.
- Analysis of neuronal morphologies and function by retrograde and anterograde labeling, using fluorescent markers (DiI and fluorescently conjugated Cholera toxin B), or AAV delivered reporters.
- Gain and loss of function manipulations using in vivo gene delivery techniques.
- Blastomere fate mapping/lineage tracing in *Xenopus tropicalis* embryos.

Molecular Biology

- Cell culture of immortalized cell lines, primary oligodendrocyte precursors, C2C12 myoblasts, and mouse embryonic stem cells.
- Mouse embryonic stem cell targeting for knock-in constructs; conditional gene activation by Cre recombination; generation of transgenic mouse lines.
- In situ hybridization/immunohistochemistry for the analysis of developmentally regulated genes.
- Regulatory mechanisms of gene expression in tissue culture systems in vitro: northern analysis, ribonuclease protection assay, promoter activity studies by transient transfection of reporter gene constructs and DNA binding assays.
- Molecular cloning for RNA or protein expression, bacterial cell culture, bacteriophage work
- Gene cloning by differential display of mRNA, RACE and cDNA library screening.
- Gene expression profiling using RNASeq, analysis of Deep Sequencing data.
- Generation and purification of fusion proteins and generation and purification of polyclonal antibodies
- Affinity chromatography, Ion exchange chromatography, fractionation of samples.
- ELISA, Western Blotting, study of protein – protein interactions using yeast two hybrid assays and protein pull-downs combined with mass spectrometry.

Clinical and Experimental Immunology:

- Isolation and purification of blood cell subpopulations; immunohistology; indirect immunofluorescence studies for clinical immunology. Evaluating Auto-Immune antibodies in Lupus and Vasculitis syndromes
- Production and purification of Monoclonal Antibodies from Ascites or serum free cultures of hybridomas.
- In vitro studies of inflammatory mediators action on cell cycle, gene expression and differentiation programs of primary muscle and glial cell cultures.

Computational Skills:

- Comfortable with Mac OS, Windows and Unix environments, including command line scripts
- Expert User – Microsoft Office and Libre Office Suites
- Image processing using ImageJ/Fiji (including programming macros and plugins), Matlab, Adobe suite (Illustrator, Photoshop, Acrobat), Gimp and Inkscape
- Large data analysis, using embedded functions and scripts in Matlab, R and a variety of Python Packages: applications to Deep Sequencing datasets, Electrophysiological Recordings with large multielectrode arrays, neuronal arbor morphological analysis, and animal behavior data analysis.
- Basic level knowledge of C++, Javascript

Data synthesis and Communication Skills:

- Analysis and summary of data across a broad array of fields, ranging across Multichannel electrophysiology, Deep Sequencing/gene expression profiling, cell morphometry and animal behavior.

- Delivered presentations in international congresses and invited lectures at various universities
- Prepared Oral and Poster Presentations of various lengths and scopes
- Authored book chapters and publications, including figures

Language Proficiency: Romanian, English, German, French – Advanced Reading, Writing, Speaking
Italian, Spanish – Basic Reading, Speaking

Other training:

Tempus Program Internship in Immunology and Infectious Diseases. December 1- 31 1993

Kantonspital Basel, Department of Infectious Diseases, University Basel
(Laboratory of Werner Zimmerli)

Third Central European Summer School of Immunology September 1994
Kosice, Slovak Republic
Under the sponsorship of the International Union of Immunological Societies,
Basel Institute of Immunology and Gesellschaft für Immunologie (Class of Lucien Aarden)

Teaching experience:

Delivered lectures and directed laboratory sections for the Immunology course in the School of Medicine, Spring Semester 1995
University “Iuliu Hatieganu,” Cluj-Napoca, Romania
Conducted research on antigen specificity in autoimmune vasculitis syndromes.

Teaching assistant – Lead discussion sections 1998-1999 academic year
and graded in the Neurobiology Course (Darcy Kelley and Stuart
Firestein), Columbia University, New York

Teaching assistant – Graded and student discussions in the Genetics 2002-2004 academic years
course (Jeremy Nathans and Roger Reeves), Medical School
at Johns Hopkins University

Lecturer - Neuroscience Fall 2022 Semester
Universitatea Transilvania Brasov - Faculty of Electrical Engineering and Computer Science - Robotics
Bachelor of Science Program

Lecturer - Neuroscience Fall 2022 Semester
Polytechnic University of Bucharest - Faculty of Medical Engineering - Medical Engineering & Modern
Technologies for Medical Engineering Master of Science Programs

Mentoring/Supervisor/Manager activity:

National Institutes of Health (2010 - 2021)

- Lead a group of biomedical researchers for 10 years. Participated in recruitment and management committees at NEI and NIH levels for several years. Train PhD, Postdoctoral, Master and Bachelor students. All trainees have secured jobs in Academia, Biotech companies or Medical School / Residency Fellowship, etc.

Five Postdoctoral Fellows: Friedrich Kretschmer, Alireza Ghahari, Vladimir Muzyka, Manvi Goel, Raluca Pascalau.

PhD students: Graduate partnership Program with UBB Cluj, Romania: Miruna Ghinia, Szilard Sajgo, On advisory committee (mentors: Samer Hattar, Phyllis Robinson, UMBC, Maryland): Preethi Somasundaram, Alexis Rubin.

Two M.Sc. Students: Walid Chatila (Georgetown) and Momina Tariq (George Mason)

Eight Postbac Fellows: Melody Shi, Sumit Kumar, Oluwaseyi Motajo, Katherine Chuang, Eileen Nguyen, Rebecca Lees, Annie Fuller, Armaan Akbar.

Four Undergraduates: Nadia Parmhans, Beverly Wu, Esika Savsani, Tyger Lin

Transylvania University of Brasov (2021 - present)

- Leading a group of biomedical researchers (1 Postdoctoral fellow, 2 PhD students, 1 Master student, several undergraduates and volunteers.

Awards:

1. Young Investigator Award at the XVII International Complement Workshop October 11-16, 1998 Rhodes, Greece

2. First prize - poster presentation at the Gordon Research Conference on Visual Development, Salve Regina, Rhode Island, US, August 10-15, 2008

3. Ten Years Service Award – United States of America Government - 2020

4. Romanian Academy Award 2022: Premiul „Nicolae Simionescu“ Suită de 22 lucrări (2015-2020): Un concept unitar pe baza studiilor celulelor retinale ganglionare (CRG), neuronii care transmit informația vizuală de la ochi la creier Autor: Tudor Constantin Badea

Membership in Societies and Professional Organizations:

Howard Hughes Medical Institute – Research Associate 2005 - 2010.

American Association of the Advancement of Science – Since 1996.

Society for Neuroscience – Since 2001.

American Physiological Society – Since 2017

Association for Research in Vision and Ophthalmology – Since 2011

Stadtman Tenure Track Investigator Recruitment Committee – 2012 – 2013

Animal Care and Use Committee - NEI – since 2012

Romanian Society for Neuroscience - since 2022

Federation of European Neuroscience Societies - Since 2022

Referee for Scientific Journals, Tenure Evaluation and Granting Agencies:

Reviewer for: Acta Histochemica; Biochimica et Biophysica Acta; BMC Biology; BMC Molecular Brain; BMC Molecular Medicine; Cell Death and Disease; Cellular and Molecular Life Sciences; Developmental Dynamics; Developmental Biology; eNeuro; FEBS Letters; Genesis; Graefe's Archiv; Journal of Comparative Neurology; Journal of Neuroscience; Journal of Neurophysiology; Molecular Vision; Molecular Cellular Neuroscience; Molecular Medicine; Nature Communications; Neuroscience; Pigment Cell and Melanoma Research; PLOS One; Proceedings of the National Academy of Sciences (USA); Proceedings of the Royal Society (B)

Editorial Board: PLOSOne, Frontiers in Neuroscience (Neurodevelopment section)

Evaluated grant proposals for:

Agence Nationale de Recherche (France); Association Retina France; Wellcome Funds (UK); Royal Netherlands Academy of Arts and Sciences; Israel Science Foundation.

Served as referent for tenure/promotion Committees: Baylor College of Medicine, University of Texas – McGovern Medical School and University of Virginia.

Patents:

(WO/2006/110748) RESPONSE GENE TO COMPLEMENT 32 (RGC-32) IN DISEASE
THE UNIVERSITY OF MARYLAND, BALTIMORE, Inventors: Rus, Horea, Badea, Tudor
Fosbrink, Matthew.

Genetic Mouse Models developed are being distributed through Jax Mice to more than 350 labs in 15 countries (as of 2014).

Funding history

- 1) Graduate and postdoctoral studies – Howard Hughes Medical Institute as part of the lab of Jeremy Nathans – Johns Hopkins
- 2) NEI Investigator 2011 - 2021 Intramural research awards = Retinal Circuit Development & Genetics Unit, Project numbers 1ZIAEY000504-01 - 11 (ranging from 900,000 – 1,800,000 US\$)
- 3) Project coordinator - PN-III-P4-PCE-2021-0333 "Dezvoltarea Si Functia Acuitatii Vizuale Centrale"- "Development and Function of High Acuity Central Vision" - UNIVERSITATEA TRANSILVANIA BRASOV (RO)
- 4) Project member - PN-III-P2-2.1-PED-2021-1323 "Noi nanostructuri proteice hibride pentru direcționarea specifică în celulele tumorale ale colonului", "New protein hybrid nanostructures for specific targeting in colon tumor cells" UNIVERSITATEA BUCURESTI (RO) Partener (P1) - UNIVERSITATEA TRANSILVANIA BRASOV; Partener (P2) - INSTITUTUL NATIONAL DE CERCETARE - DEZVOLTARE PENTRU FIZICA MATERIALELOR BUCURESTI RA Coordonator proiect - Claudia Gabriela CHILOM

Invited Seminars:

- July 2012 - College De France - Paris – France - (Dr. Alain Prochiantz)
August 2012 – Harvard Neurobiology – Boston (Dr. Michael Tri Do)
October 2012 – University of Pennsylvania – Philadelphia (Dr. Noga Vardi)
November 2012 – Columbia University – College of Physicians and Surgeons –New York (Drs. Carol Mason and Oliver Hobert).
March 2013 – George Washington University (Anthony LaMantia) and University of Maryland Baltimore County (Phyllis Robinson).
May 2013 – SUNY Upstate Medical University of New York (Barry Knox)
September 2015 - Baylor College of Medicine (Ross Poche).
November 2017 Washington University at St. Louis School of Medicine, Neuroscience program (Daniel Kerschensteiner).
April 2018 Zongshan Ophthalmic Center, Sun Yat-Sen University, China (Chun-Qiao Liu)
April 2018 Riken Brain Science Institute, Tokyo, Japan (Tomomi Shimogori)
September 2019 Genentech Inc., San Francisco (Henri Jasper)
December 2020 NERF/VIB, Leuven, Belgium (Karl Farrow)
June 2021 NeuroPSI - Paris-Saclay Institute of Neuroscience, Paris-Saclay University, France (Muriel Perron)

Summary of Achievements:

PhD thesis: "A genetic strategy for the study of neuronal cell types and their development" - Biochemistry, Cell and Molecular Biology Program, Johns Hopkins University School of Medicine, May 2004. Thesis advisor jeremy Nathans

Book Chapters: 2

ISI indexed papers (WOS core collection) = 108 of which

ISI indexed (WOS core collection) peer reviewed manuscripts = 66

ISI indexed (WOS core collection) meeting abstracts = 42

Patents: 1
