

Lista lucrări

Carti, manuale, îndrumare de laborator în edituri internatinale, ca autor:

Spectroscopic investigation of deposited InP nanocrystals and small Cu clusters, Editura Proquest, Statele Unite ale Americii, ISBN 9780438990364, An aparitie: 2019, Autor: **Mihai Sorin Adam**

Carti, manuale, indrumare de laborator in edituri nationale, ca autor:

Physics labs for engineering students, Editura Universitatii Transilvania, Brasov, ISBN 978-606-19-0469-3, An Aparitie:2014, Autor: **Mihai Sorin Adam**

Fizica Generala, Editura Universitatii Transilvania, Brasov ISBN: 978-973-598-173-0,, An Aparitie:2007, Autori: Monica Florescu, **Mihai Sorin Adam**, Natalia Dihoiu

Methods and techniques used in forest fires and environmental monitoring, Editura Universitatii Transilvania, Brasov ISBN: I 978-973-598-156-3, An Aparitie: 2007, Autori: Monica Florescu, Claudia Stihi, Natalia Dihoiu, Silvia Patachia, Florin Ioras, **Sorin Adam**

Metode si tehnici de monitorizare si prevenire a incendiilor forestiere, Editura Universitatii Transilvania din Brasov, ISBN:978-973-598-155-6, An Aparitie:2007, Autori: Monica Florescu, Claudia Stihi, Natalia Dihoiu, Silvia Patachia, Florin Ioras, **Sorin Adam**

Laboratory Book, editura:Editura Universitatii Transilvania, Brasov, ISBN: 978-973-598-168-6, An Aparitie:2007, Autori: Monica Florescu, Natalia Dihoiu, **Sorin Adam**, Claudia Stihi, Florin Ioras, Daniel Nagy

Aplicatii Practice, Editura Universitatii Transilvania, Brasov ISBN:978-973-598-169-3, An Aparitie:2007, Autori: Monica Florescu, Natalia Dihoiu, **Sorin Adam**, Claudia Stihi, Florin Ioras

Articole stiintifice in extenso ca autor:

The effect of nanocrystal surface structure on the luminescence properties: photoemission study of HF-etched InP nanocrystals

S. Adam, D. V. Talapin, H. Borchert, A. Lobo, C. McGinley, A. R. B. de Castro, M. Haase, H. Weller, and T. Möller; J. Chem. Phys. 2005, vol. 123, p. 084706

WOS:000231598600046

DOI: 10.1063/1.2004901

Photoemission study of size selected InP nanocrystals: The relationship between luminescence yield and surface structure

S. Adam, C. McGinley, T. Möller, D. V. Talapin, H. Borchert, M. Haase, H. Weller
Eur. J. Phys. D 2003, vol. 24, p. 373-376

WOS:000184687800087

DOI: 10.1140/epjd/e2003-00162-1

Small copper clusters in Ar shells: study of local structure

V. Mazalova, A. Soldatov, R. Johnston, A. Yakovlev, T. Moller, S. Adam; J. Phys. Chem.C 2009, Vol. 113, p. 9086–9091

WOS:000266390100012

DOI: 10.1021/jp809401r

Small copper nanoclusters: x-ray absorption analysis

A. V. Soldatov, G. E. Yalovega, V. L. Masalova, Y. Joly, **S. Adam**, A. Lobo, T. Möller ; Rad. Phys. Chem. 2006, vol. 75, p. 1519-1521

WOS:000242185600016

DOI: 10.1016/j.radphyschem.2005.07.013

A core-level photoemission study of the InAs/CdSe nanocrystalline system

C. McGinley, A. Lobo, **S. Adam**, T. Möller, H. Borchert, D. V. Talapin, M. Haase, H. Weller, A. R. B. de Castro; Phys. Rev. B 2004, vol. 69, p. 045301

WOS:000189075200046

DOI: 10.1103/PhysRevB.69.045301

High resolution photoemission study of CdSe and CdSe/ZnS core-shell nanocrystals H. Borchert, D. V. Talapin, C. McGinley, **S. Adam**, A. Lobo, A. R. B. de Castro, T. Möller, H. Weller

J. Chem. Phys. 2003, vol. 119, p. 1800-1807

WOS:000183915100055

DOI: 10.1063/1.1580096

Relations between the Photoluminescence Efficiency of CdTe Nanocrystals and Their Surface Properties Revealed by Synchrotron XPS

H. Borchert, D. V. Talapin, N. Gaponik, C. McGinley, **S. Adam**, A. Lobo, T. Möller, H. Weller; J. Phys. Chem. B 2003, vol. 107, p. 9662-9668

WOS:000185233600008

DOI: 10.1021/jp0352884

Photoemission study of Onion like Quantum Dot Quantum Well and Double Quantum Well Nanocrystals of CdS and HgS

H. Borchert, D. Dorfs, C. McGinley, **S. Adam**, T. Möller, H. Weller, A. Eychemüller; J. Phys. Chem. B 2003, vol. 107, p. 7486-7491

WOS:000184357100039

DOI: 10.1021/jp027485t

Green-Emitting CePO₄:Tb/LaPO₄ Core-Shell Nanoparticles with 70 % Photoluminescence Quantum Yield

K. Kömpe, H. Borchert, J. Storz, A. Lobo, **S. Adam**, T. Möller, M. Haase; Angewandte Chemie - International Edition 2003, vol. 42 (44), p. 5513-5516

WOS:000186816400023

DOI: 10.1002/anie.200351943

Order-disorder transitions in the Fe₂VAl Heusler alloy

S. Maier, S. Denis, **S. Adam**, J.-C. Crivello, J. M. Joubert, E. Alleno, Acta Materialia, vol. 121, (2016), p. 126-136

WOS:000386984500012

DOI: 10.1016/j.actamat.2016.08.080
