

LISTĂ LUCRĂRI ȘTIINȚIFICE

A. Lucrări științifice:

1. Lepădătescu, B., **Popescu, M.**, - Constructive solution for device to superfinish cylindrical external surfaces of the main shaft in the truck gearbox. International conference Sofia, 1998.
2. **Popescu, M.**, Lepădătescu, B., - Applications of superfinishing in the technological processes of repairing elements in the ship's transmission and engine structure. In: International conference, Constanta, 1998.
3. Lepădătescu, B., **Popescu, M.**, -Technological equipment for superfinish plane surfaces of the gear pump pinions. In: International conference on Economic Engineering and Manufacturing Systems, Brasov, 1999.
4. **Popescu, M.**, Lepădătescu, B., - Original solution of an technological equipment for superfinishing the inner-noncylindrical surfaces. In: International conference Sofia, Bulgaria, 1999.
5. **Popescu, M.**, Lepădătescu, B., - Method for superfinishing cylindrical surfaces of the gear pump pinions. In: International conference on Economic Engineering and Manufacturing Systems, Brasov, 2000.
6. Lepădătescu, B., **Popescu, M.**, - Superfinishing technology and equipment for the tightness surfaces of the Gate valve DN3". Revista RECENT- Octombrie 2001.
7. Lepădătescu, B., **Popescu, M.**, - The method to process the external surfaces through superfinish. In: International Conference Sozopol, Bulgaria, 2001.
8. **Popescu, M.**, Lepădătescu, B., The method of processing the external surfaces by superfinishing, Revista RECENT 4, Vol.2, 2001.
9. Lepădătescu, B., **Popescu, M.**, Superfinishing technology and equipment for the tightness surfaces of the gate valve DN3, Revista RECENT 4, Vol.2, 2001.
10. Lepădătescu, B., **Popescu, M.**, onstructive solutions for device to superfinish cylindrical external surfaces of the main shaft in the truck gearbox, Revista RECENT 6, nr.1 (6), vol.3, 2002.
11. **Popescu, M.**, Lepădătescu, B., - Special equipment to superfinish the holes from the ends of shafts. In: 12th International Symposium "Metrology and metrology assurance", 2002, Sozopol, Bulgaria.
12. **Popescu, M.**, Lepădătescu, B., Flexible equipment for superfinishing external surfaces of toothed gear hubs, Revista RECENT nr.1 (7), vol.4, 2003.
13. **Popescu, M.**, Buzatu, C., Considerations concerning the evolution and the current stage of the researches in the field of monitoring and manufacturing process performances.
14. **Popescu, M.**, Buzatu, C., Uncertainty estimation and reporting for finished leather characteristics as results from the laboratory final trials, Revista RECENT nr.2 (11), vol.5, 2004.
15. Urdea, M., **Popescu, M.**, Contributions concerning database creation to calculate material input cost for a given thin-wall plain bearing. International Conference on Computing and Solutions in Manufacturing Engineering CoSME'04 september 16-18, 2004, Universitatea "Transilvania" din Braşov, Universitatea "Transilvania" din Braşov, p.93-94. ISBN 973-635-372-9.
16. **Popescu, M.**, Urdea, Considerations on working with databases rezulted from drawing created with AutoCAD, International Conference on Engineering Graphics and Design 2005, POLITEHNICA University of Bucharest, p. 93-96, ISBN 973-648-471-8.
17. Gîrdu, C.C., Drăgoi, M.V., **Milesan, M.**, Rădulescu, C., Laser cutting of soft steel in industrial oarts manufacturing, National Scientific Conference with international participation "Confereng 2019", Analele Universităţii „Constantin Brâncuşi” din Târgu Jiu, seria Inginerie, nr.2, 2019.
18. Gîrdu, C.C., Drăgoi, M.V., **Milesan, M.**, Rădulescu, C., Modeling and study of laser cutting of soft steel in industrial parts manufacturing, Analele Universităţii „Constantin Brâncuşi” din Târgu Jiu, seria Inginerie, nr.2, 2019.
19. **Mileşan, M.**, Gîrdu, C.C., Cîrţănă, L.M., Rădulescu, C., Mathematical modelling study of Hardox400 steel parts' roughness and hardness, cut with CO₂ laser, Journal of Mechanical Engineering, vol.66, nr.2, 2020, <https://www.sv-jme.eu/article/mathematical-modeling-study-of-hardox400-steel-parts-roughness-and-hardness-cut-with-co2-laser/> (lucrare cotata ISI: 0,52)

B. Cărți publicate:

1. Brana, M., **Popescu, M.**, ș.a., - *Grafică Asistată – Îndrumar de lucrări*. Editura Universitatii Transilvania din Brasov, 1994, 272 pagini.
2. Lihtețchi, I., **Popescu, M.**, ș.a., - *Grafică pe Calculator*. Editura Universitatii Transilvania din Brasov, 1996, 190 pagini.
3. Bârsan, L., **Popescu, M.**, ș.a., - *Estetică Industrială*. Editura Universitatii Transilvania din Brasov, 1998, 260 pagini.
4. Lepadatescu, B., **Popescu, M.** – *Tolerances and Dimensional Control*. Editura Universitatii Transilvania din Brasov, 2002, 224 pagini.
5. Lepadatescu, B., **Popescu M.**, Simon, A.E., *Communication Skills*, Editura Universitatii Transilvania din Brasov, 2005.

C. Teza de doctorat:

Contributii la monitorizarea si optimizarea proceselor de fabricatie, 2005, Conducatorul de doctorat: prof.dr.ing. Buzatu Constantin, domeniul: Inginerie Industrială.
